# **Sree Charan**

B.Tech CSE | Intern @ Teachnook | 5+ Hackthon Winners | Data Science Enthusiast | 3# CodeChef | UI/UX | Lifelong Learner Delhi, India

## Summary

Introduction:

Hi there! I'm a driven third-year B.Tech CSE student at LPU, currently interning at Teachnook. My passion lies in leveraging technology to make a positive impact.

Technical Expertise:

I'm proficient in building dynamic web applications using Flask, a Python framework. This skillset proved invaluable during my internship at Teachnook, where I contributed to streamlining educational processes.

My problem-solving skills are honed through active participation in hackathons. I was part of the AWon 4 hackathon, tackling real-world challenges alongside other creative minds.

Data Science and Development:

My fascination with data analysis led me to explore the vast world of Data Science. I'm constantly learning and expanding my knowledge in this domain.

This curiosity extends to building full-fledged applications. One such project involved creating a platform similar to LinkedIn, putting my technical skills to the test.

Competitive Coding and Broader Skillset:

I enjoy the challenge of competitive coding and have achieved a 3-star rating on CodeChef, a testament to my ability to think algorithmically and solve problems efficiently.

My technical background is further bolstered by a strong foundation in Data Structures and Algorithms (DSA) and proficiency in SQL databases.

UI/UX Design and Growth Mindset:

I understand the importance of creating user-friendly interfaces. My knowledge of UI/UX design principles helps me ensure the applications I build are not just functional but also intuitive and user-friendly.

I'm a lifelong learner, constantly seeking opportunities to expand my knowledge base. Whether it's exploring new frameworks, delving deeper into Data Science, or refining my design sensibilities, I'm always eager to grow.

Conclusion:

I'm passionate about technology and its potential to solve problems and improve lives. Combining my technical skills with my problemsolving abilities and growth mindset, I'm excited to contribute to the tech landscape and collaborate with like-minded individuals. Additional Points to Consider:

Briefly mention any specific achievements or contributions during your internship at Teachnook.

If your LinkedIn-inspired project is publicly available (website, GitHub repository), mention it here.

You can quantify your DSA knowledge by mentioning the number of problems solved or the platforms you use for practice (e.g., LeetCode, HackerRank).

## Experience

#### **IIT-BHUBANESWAR**

Data Collection, Cleaning, and Analysis January 2023 - March 2023 (3 months)

Assisted in data collection, cleaning, and analysis

Developed predictive models using machine learning algorithms

Presented findings to team, contributing to decision-making process

Gained hands-on experience with data visualization tools and technique

## Education

Lovely Professional University (2022 - 2026)

Kendriya Vidyalaya 12, 12 · (April 2020 - April 2022)

Lovely Profetional Univrsity

Bachelor of Science, Computer Engineering
